ABOUT CONSUNG

Who are we

Shanghai Consung Intelligent Technology Co.,Ltd. is a leading packaging equipment supplier offering a wide range of industrial equipment solutions. We specialize in providing cartoning machines and carton packing machine, boasting over a decade of expertise in delivering comprehensive carton packaging solutions. With our extensive experience, we excel in providing tailored packaging solutions for a wide range of products in different industries. Our cutting-edge packaging machines find applications across various industries, including food, tissue, cosmetics, commodities, electronic and pharmaceuticals.

Key Markets

1

Food Industry: Baked goods, Snacks, Frozen foods, Chocolate and candies, Condiments and spices, Grains and cereal products, etc.

2

Pharmaceutical Industry: Tablets, Capsules, Injectable medications, Medical devices, Medication bottles, etc.

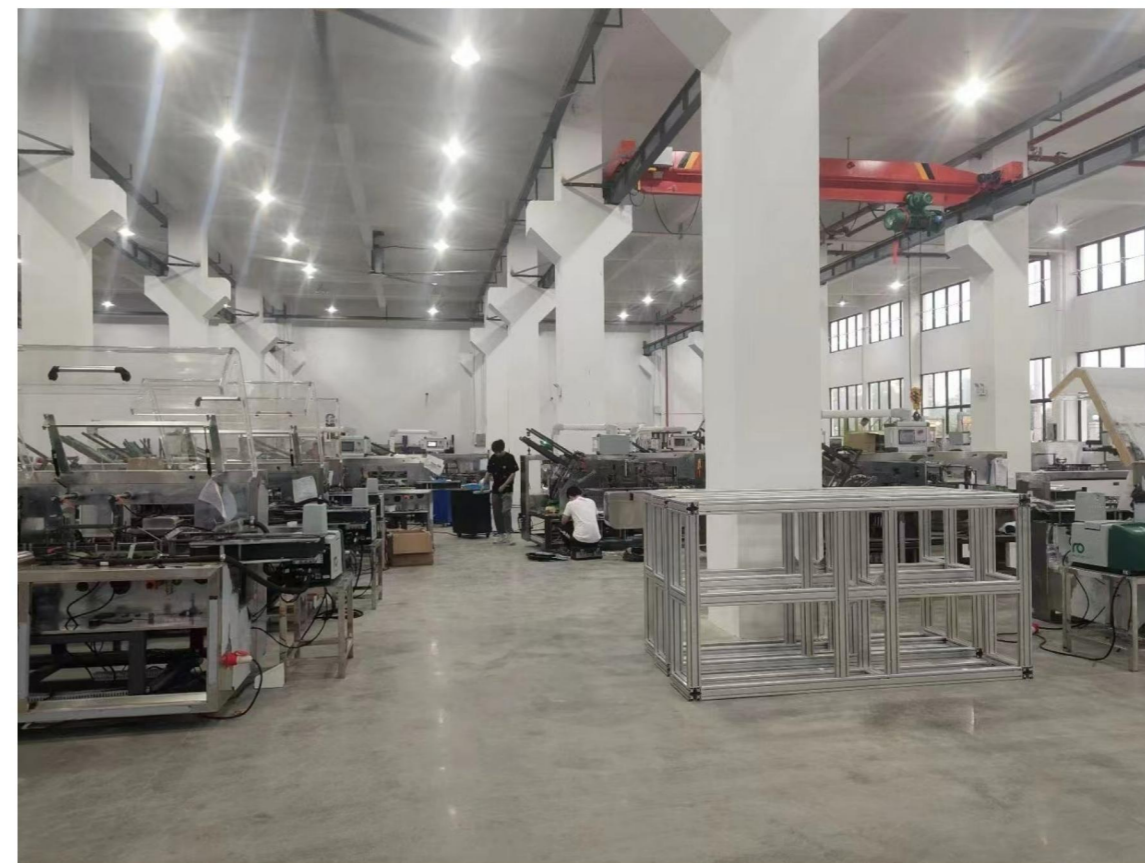

3

Cosmetics Industry: Perfume bottles, Makeup brushes and tools, Nail products, Shampoos, etc.

4

Electronics Industry : Electronic products, mobile phones, tablets, headphones, etc.

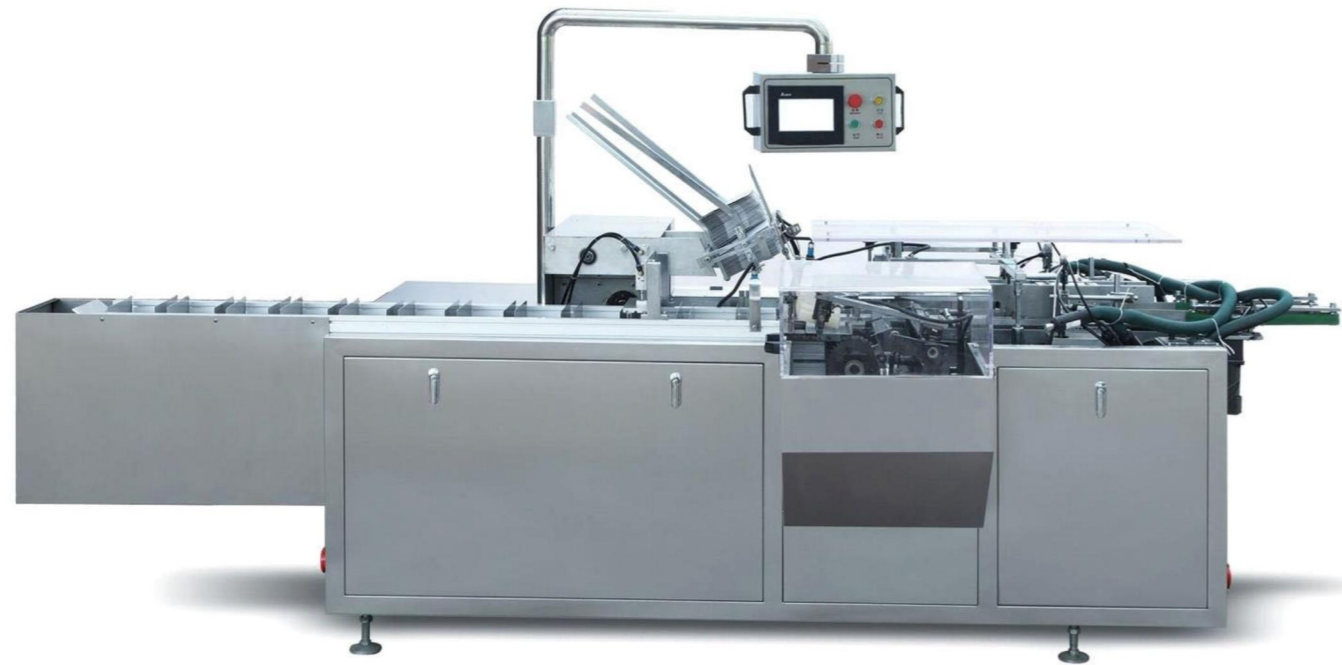

Work Shop

Consung is more than a company, we are a family.

Consung is a professional manufacturer of box packing machines and carton packing machines. Our factory features advanced processing equipment and a substantial production capacity to meet your needs efficiently. We prioritize quality, holding ISO9001 and CE certifications.

Our team of skilled engineers provides comprehensive support, from customized solutions to installation and maintenance. We offer a complete production line, including automatic flow wrapping, automatic feeding, box packing, master carton packing, labeling, and weighing. Contact us for competitive pricing and detailed machine information.

CSZ-100

Small Box Cartoning Machine

Technical Parameter

- Packing speed :30-80cartons/min
- Application: L(70-220)mm × W(14-90)mm × H(14-65)mm
- Cardboard material :250-450g/m²
- Instruction material :60-70g/m²
- Unfold Instruction size:(80-150) x (90-170)mm
- Power:1.5KW,220V,50Hz
- Dimension: L3100mm × W1100mm × H1900mm
- Weight:1500kg

Feature

Specially designed for the small box packed goods which can pre-form the boxes, put the goods into the boxes, close and seal the box automatically. There are folding and glue sealing two options based on your packaging request.

Automatic Feeding System

Automatically feeding goods into the downstream unit in an efficient manner. It can be designed as per your product and designed to connected with your production line.

Carton Storage

The carton store has a board that can move to adjust the package length. Both the front and back frame are connected by a slot hole in order to fit different packaging widths.

Instruction Folding Device

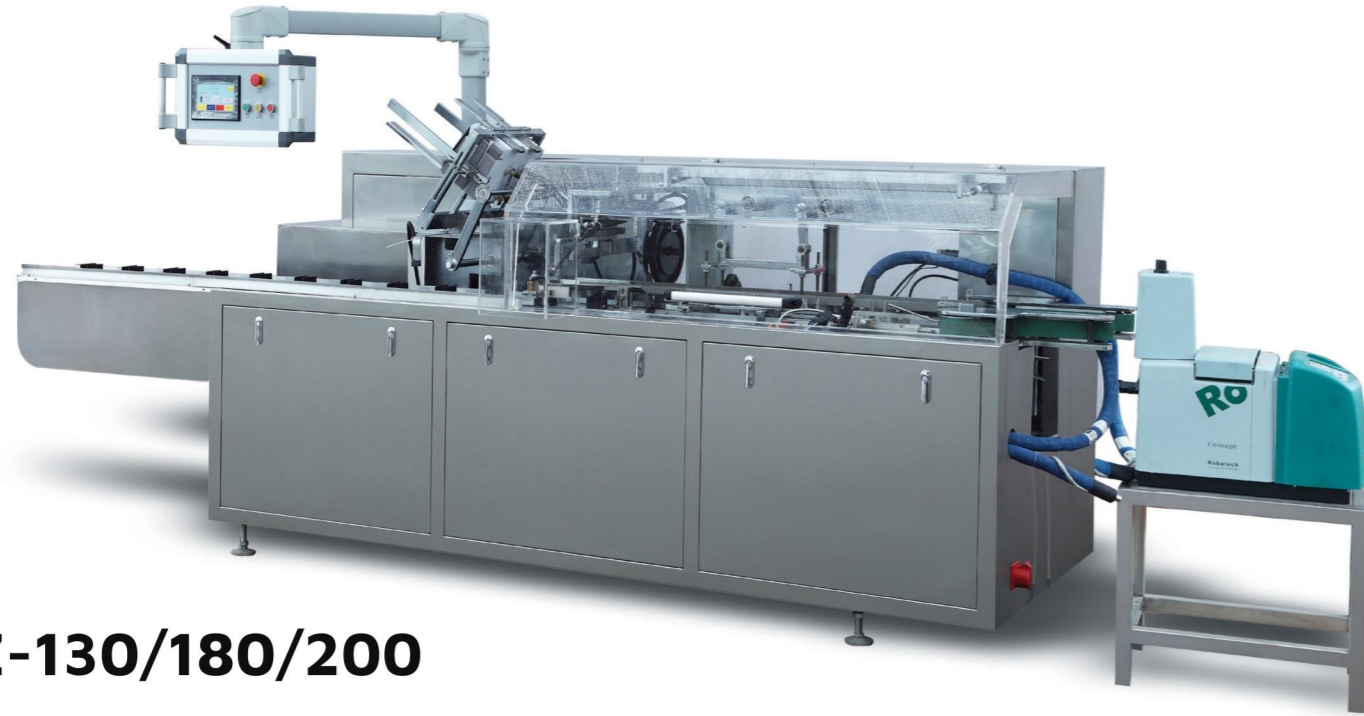

Folding the instruction paper sheets which is under the combined action of vacuum and compressed air. The folded paper sheet will be placed in position for cartoning by feeding chain.

Material Pushing Device

The pushing device is designed to push the materials, products and instruction booklets into carton boxes. Customized as per what the material inside the boxes. It along with a safety protection cover.

CSZ-130/180/200

Food Bulk Cartoning Machine

Technical Parameter

- Packing speed :30-80cartons/min
- Application: L(90-260)mm × W(60-130)mm × H(30-90)mm
- Cardboard material :250-450g/m²
- Instruction material :60-70g/m²
- Unfold Instruction size:(80-150) x (90-170)mm
- Power:1.5KW,220V,50Hz
- Dimension: L34600mm × W11350mm × H1900mm
- Weight:1800kg

Feature

The CSZ-130/180/200 box packaging machine is a versatile solution for packaging a wide range of products, including pharmaceuticals, stationery, and small consumer goods, kinds of foods.

Automatic Feeding System

Automatically feeding goods into the downstream unit in an efficient manner. It can be designed as per your product and designed to connected with your production line.

Carton Box Storage

The carton store has a board that can move to adjust the package length. Both the front and back frame are connected by a slot hole in order to fit different packaging widths.

Glue Sealing Device

Equipped with hot melt glue system to seal the carton boxes by hot melt glue. The brand of hot melt glue machine we used is Robatch with high performance.

Touch Screen

A Japanese Omron touch screen is used, ensuring stable and easy operation. It displays faults, alarms, and finished product count, making it easy to maintain and fix any problems that arise.

CSZ-280

High Speed Model Cartoning Machine

Technical Parameter

- Packing speed :50-200cartons/min
- Application: L(100-250)mm × W(60-130)mm × H(20-70)mm
- Cardboard material :250-450g/m²
- Working pressure: ≥0.6mpa
- Air consumption:20m³/h
- Power:1.5KW,380V,50Hz
- Dimension: L5000mm × W1700mm × H1900mm
- Weight:3000kg

Feature

The CSZ-280 high-speed cartoning machine is a fully automatic packaging machine that can continuously operate at high speeds while maintaining stability. With a production rate of 280 cartons per minute, it is 2-3 times faster than conventional cartoners.

Carton Box Storage

The carton storage has a board that can move to adjust the package length. Both the front and back frame are connected by a slot hole in order to fit different packaging widths.

Box Pre-forming

There are three-head box opening device Faster and more stable. Automatically open and forming the boxes for the next step to fill in with the materials.

Glue Sealing Device

Equipped with hot melt glue system to seal the carton boxes by hot melt glue. The brand of hot melt glue machine we used is Robatch with high performance.

Finished Products Output

Fished product output from the conveyor. It can be connected with other packing machine in your production line, Such as carton packing machine, carton erator , carton sealer ect.
